- GPS device training for District staff at the District Office October 18, 2022

General Business:

- Staff worked an extensive amount of time on the UW Mitigation Plan, measuring Simsboro wells, and identifying wells that could possibly be affected in the near term from agricultural pumping northwest of Hearne, Texas
- Staff answered many calls and addressed the issue of artesian water levels dropping in wells and what can be done to remedy the situation
- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers
- Continued to identify and gather data associated with all known Simsboro wells which could be significantly affected by pumping from the UW Brazos Valley Farm, LLC property in the future
- Hired John Crabtree as a part-time field technician to assist in data collection and aquifer determination on wells that could possibly be impacted by the UW Brazos Valley Farm, LLC pumping
- Continued to work with District consultants and permit applicant on parameters for a District mitigation plan including the funding mechanism
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2021 water production
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Continued reconciling identified wells with proper aquifer using the virtual bore tool going grid by grid through the entire district.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.

Upcoming Meetings/Activities:

- Model aquifer/water conservation presentation to Branch Elementary School 4th grade students October 21, 2022 in Bryan, Texas
- Watershed Presentation/Water Quality Lab for Hearne Middle School 7th grade students November 8-9, 2022 in Hearne, Texas
- Water for Texas Conference January 23-25, 2022 in Austin, Texas
- 88th Legislative Session begins January 10, 2023
