- Attended (Alan, Cynthia, John, Megan, John Elliott, Jayson Barfknecht, Gary Mechler, Jeff Kennedy) Texas Groundwater Summit August 29-31, 2023 in San Antonio, Texas

**General Business:**

- Moved onto the new Halff database platform and began to work through importing issues and expected revisions
- Worked extensively throughout the month on rules revision language and answering questions posed by the public and board members
- Completed water level measurements in all available designated monitoring wells
- Continued measuring selected Simsboro and Calvert Bluff static water levels during the summer irrigation season
- Continued to measure selected Simsboro wells and obtain weekly static water level data from four (4) recorder wells
- Staff (Alan & John) continued identifying wells within the likely zone to be affected by the UW Brazos Valley Farm, LLC future pumping project obtaining elevation, static

- water level, well construction information, pump size, and GPS coordinates
- Continued creating, updating, and refining the well mitigation spreadsheet for wells likely impacted by the UW Brazos Valley Farm, LLC future pumping project (286 Simsboro identified to date)
  - Check all registered exempt well files for transfers of ownership creating new certificates and mailing to proper owner
  - Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers.
  - Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
  - Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
  - Invoiced all "Production Monthly" permit holders for 2022 water production.
  - Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
  - Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
  - ArcGIS map/data program updating of exempt well locations and well data.
