Permit holder seeks to amend Operating permits BVDO-0218 & BVDO-0219 changing the type of beneficial use from Industrial to Agricultural following the transfer of the wells and permits from Wildhorse Resources. Permittee also requests that both permits be amended lengthening the permit term from one (1) to five (5) years.

Application is administratively complete. It is the recommendation by the General Manager to approve the amendments to BVDO-0218 & BVDO-0219 as described above.

Permit No. BVDO-0218

**Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District**

This **Operating Permit** is granted to **William T. Martin** (Permittee) authorizing the Permittee to operate a water well, known as **Well #1** ("Well"), at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 30.70447827° W 96.31908579°** to produce water from the **Sparta Aquifer** at an annual maximum capacity not to exceed **150 GPM** and a maximum annual production of **150 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of August 9, 2023. The permit was amended October 12, 2023 lengthening the permit term from one (1) year to five (5) years and changing the beneficial use to Agricultural.

Special Provisions/Notes: None
