

**Worksheet for Amendment of BVDO-0208, BVDO-0209 and BVDO-0210
Well #4, Well #5 and Well #6**

Permits issued to: Nathan Philipello

Permit issue date: January 12, 2017

Location:

Well #4 - N 31.01919504° W 96.55625895° 1.98 miles NNE of the intersection of FM 1644 and Barville Road in Robertson County.

Well #5 - N 31.018406° W 96.555885° 1.97 miles NNE of the intersection of FM 1644 and Barville Road in Robertson County.

Well #6 - N 31.019988° W 96.557654° 1.99 miles NNE of the intersection of FM 1644 and Barville Road in Robertson County.

Aquifer: Calvert Bluff

Permitted production: 30 acre feet/well/year

Maximum Capacity: 100 gpm (all wells)

Beneficial use: Agricultural Use (Poultry House supply)

Amendment needed:

- **Change the aquifer of origin from the Simsboro Aquifer to the Calvert Bluff Aquifer. The original drilling intent was to screen the Simsboro but an adequate water supply was obtained from the Calvert Bluff.**

Application is administratively complete.

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Nathan Philipello** (Permittee) authorizing the Permittee to operate a water well known as **Well #4** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 31.01919504° and W 96.55625895°** to produce water from the **Calvert Bluff Aquifer** at an annual maximum capacity not to exceed **100 GPM** and a maximum annual production of **30 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of January 12, 2017. This permit was amended on January 11, 2018 changing the aquifer of origin from the Simsboro Aquifer to the Calvert Bluff Aquifer.

Special Provisions/Notes: None

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Nathan Philipello** (Permittee) authorizing the Permittee to operate a water well known as **Well #4** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 31.01919504° and W 96.55625895°** to produce water from the **Simsboro Aquifer** at an annual maximum capacity not to exceed **100 GPM** and a maximum annual production of **30 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of January 12, 2017.

Special Provisions/Notes: None

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Nathan Philipello** (Permittee) authorizing the Permittee to operate a water well known as **Well #5** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 31.018406° and W 96.555885°** to produce water from the **Calvert Bluff Aquifer** at an annual maximum capacity not to exceed **100 GPM** and a maximum annual production of **30 acre feet/year**.
