

#### **Item 4 – Action on Failure to Report 2018 Water Production – Richard Watson**

Mr. Richard Watson was contacted mid-January as a reminder to submit water production numbers regarding Operating permit BVDO-0015 by February 1, 2019. Mr. Watson indicated he would not be submitting any water production data to the District. More attempts were made prior to February 1<sup>st</sup> asking how we would work through the issue. These attempts were to no avail.

At the direction of the General Manager, Monique Norman sent a letter to Mr. Watson dated February 19, 2019 with a deadline to submit 2018 water production information by Friday, March 8, 2019 or the matter would be brought before the Board for enforcement action March 14, 2019. The deadline has since passed with no resolution.

It is recommendation of the General Manager that the District move forward with enforcement action to secure water production numbers for 2018 and water production fees associated with the production.
