

**Item 7 – Request for Contracted Services Professional Liability Insurance/Level of Insurance**

The Personnel/RFP Committee met on Thursday, September 5, 2019 to evaluate currently contracted service providers performance for the past year, review contracts that had been submitted for contract services for fiscal year 2020, and develop recommendations for the Board to consider. The meeting adjourned with a decision to postpone the posted meeting and agenda until the committee and Board requested currently engaged contractors to provide proof of professional liability insurance. Level of insurance was another aspect suggested for review.

The above actions require board approval. Below is the posted actionable agenda item language for the September 12, 2019 Regular Board meeting.

*Discussion and possible action requesting existing contracted entities and those seeking to provide future contract services for the District to provide proof of professional liability insurance and to determine District requirements for the level of professional liability insurance coverage for contract services.*
