

Worksheet for a Correction to Historic Use & Operating Permits

Michael & Carolyn Lampe – BVHU-0152, BVHU-0153, BVOP-0275, BVOP-0276

The General Manager seeks to correct four (4) Operating Permits (BVHU-0152, BVHU-0153, BVOP-0275, BVOP-0276) for the purpose of:

- **Agricultural Use (Poultry House)**

Permitted Wells:

- **One (1) permitted well for Michael & Carolyn Lampe - Well #1 (BVHU-0152)** located at N 30.91818878° W 96.31282056° 0.38 miles NE of the intersection of Nichols Road and Edge Cut Off Road in Brazos County
- **One (1) permitted well for Michael & Carolyn Lampe - Well #2 (BVHU-0153)** located at N 30.91828986° W 96.31293191° 0.39 miles NE of the intersection of Nichols Road and Edge Cut Off Road in Brazos County
- **One (1) permitted well for Michael & Carolyn Lampe - Well #3 (BVOP-0275)** located at N 30.91728918° W 96.31168617° 0.41 miles ENE of the intersection of Nichols Road and Edge Cut Off Road in Brazos County
- **One (1) permitted well for Michael & Carolyn Lampe - Well #4 (BVOP-0276)** located at N 30.91728918° W 96.31033756° 0.46 miles E of the intersection of Nichols Road and Edge Cut Off Road in Brazos County

Beneficial Use: **Agricultural – Poultry House (All wells)**

Aquifer of Origin: **Queen City (All wells)**

Well Column: **4”**

Date Drilled/Depth:	Well #1	1997	600' (reported)
	Well #2	August 9, 2005	600'
	Well #3	December 17, 2008	630'
	Well #4	August 4, 2014	620'

Rate of Production: **60 gpm (All wells)**

Max. Annual Production: **22.4 acre-feet/year (Each well)**

The General Manager is requesting to correct the existing Historic Use and Operating permits to properly identify the aquifer of origin. When originally permitted, the wells were presented as Sparta wells. Recent geological review reveals the screened interval is the Queen City Aquifer.

It is the recommendation by the General Manager to approve correcting the four (4) permits presented to reflect the proper aquifer of origin as the Queen City.

Historic Use Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Historic Use Permit** is granted to **Michael & Carolyn Lampe** (Permittee) authorizing the Permittee to operate a water well known as **Well #1** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. This permit is conditioned upon and subject to the Permittee complying with the Rules of the District ("Rules"), orders of the Board and the Management Plan of the District, as amended, and the laws, rules and regulations of the State of Texas, as amended, applicable to drilling, operating and maintaining water wells within the District. This permit confers only the right to use the permit under the provisions of the Rules and according to the terms of this permit. The permit terms may be modified or amended pursuant to the Rules.

The Permittee is authorized to operate the Well located at **N 30.918176° and W 96.312801°** to produce water from the **Queen City Aquifer** at a maximum capacity not to exceed **60 GPM** and a maximum annual production of **22.4** acre feet.

The Rules are incorporated herein in their entirety by reference, as if set forth herein verbatim. The Permittee shall comply with the Rules and each requirement thereof in operating, maintaining, repairing and altering the Well. The application pursuant to which this permit has been issued is incorporated into this permit, and this permit is granted on the basis of, and contingent upon, the accuracy of the information supplied in that application. A finding that false information has been supplied to the District in the permitting process for the Well is grounds for revocation of this permit.

The issuance of this permit does not grant to the Permittee the right to use any private property, or any public property, for the production or conveyance of water. Neither does this permit authorize the invasion of any personal rights nor the violation of any federal, state, or local laws, rules or regulations. Further, the District makes no representations and shall have no responsibility with respect to the availability or quality of water authorized to be produced under this permit.

This Historic Use Permit will remain in effect for the life of the well as long as water is being produced for the herein specified beneficial use, subject to the District's Rules, Management Plan, and State laws.

This permit is issued and effective on April 5, 2006. This permit was corrected June 10, 2021 to properly identify the aquifer of origin.

**This historic permit was corrected June 10, 2021 to properly identify the aquifer of origin. The permit correction does not affect the historic integrity of the originally issued historic permit.*

Historic Use Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Historic Use Permit** is granted to **Michael & Carolyn Lampe** (Permittee) authorizing the Permittee to operate a water well known as **Well #2** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. This permit is conditioned upon and subject to the Permittee complying with the Rules of the District ("Rules"), orders of the Board and the Management Plan of the District, as amended, and the laws, rules and regulations of the State of Texas, as amended, applicable to drilling, operating and maintaining water wells within the District. This permit confers only the right to use the permit under the provisions of the Rules and according to the terms of this permit. The permit terms may be modified or amended pursuant to the Rules.

The Permittee is authorized to operate the Well located at **N 30.91825° and W 96.3128°** to produce water from the **Queen City Aquifer** at a maximum capacity not to exceed **60 GPM** and a maximum annual production of **22.4** acre feet.

The Rules are incorporated herein in their entirety by reference, as if set forth herein verbatim. The Permittee shall comply with the Rules and each requirement thereof in operating, maintaining, repairing and altering the Well. The application pursuant to which this permit has been issued is incorporated into this permit, and this permit is granted on the basis of, and contingent upon, the accuracy of the information supplied in that application. A finding that false information has been supplied to the District in the permitting process for the Well is grounds for revocation of this permit.

The issuance of this permit does not grant to the Permittee the right to use any private property, or any public property, for the production or conveyance of water. Neither does this permit authorize the invasion of any personal rights nor the violation of any federal, state, or local laws, rules or regulations. Further, the District makes no representations and shall have no responsibility with respect to the availability or quality of water authorized to be produced under this permit.

This Historic Use Permit will remain in effect for the life of the well as long as water is being produced for the herein specified beneficial use, subject to the District's Rules, Management Plan, and State laws.

This permit is issued and effective on April 5, 2006. This permit was corrected June 10, 2021 to properly identify the aquifer of origin.

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Michael & Carolyn Lampe** (Permittee) authorizing the Permittee to operate a water well known as **Well #3** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 30.917289° and W 96.311686°** to produce water from the **Queen City Aquifer** at an annual maximum capacity not to exceed **60 GPM** and a maximum annual production of **22.4 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of April 13, 2017. This permit was corrected June 10, 2021 to properly identify the aquifer of origin.

Special Provisions/Notes: None

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Michael & Carolyn Lampe** (Permittee) authorizing the Permittee to operate a water well known as **Well #6** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** use. Permittee is authorized to operate the Well located at **N 30.916191° and W 96.310338°** to produce water from the **Queen City Aquifer** at an annual maximum capacity not to exceed **60 GPM** and a maximum annual production of **22.4 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of April 13, 2017. This permit was corrected June 10, 2021 to properly identify the aquifer of origin.
