General Business:

- Began work to identify more monitoring wells in the Carrizo Calvert Bluff, Queen City, and Simsboro aquifers
- Identified all known Simsboro wells within a 10-mile radius of the UW Brazos Valley Farm, LLC property
- Developed a shape file containing all Wildfire Energy leases
- Developed a shape file for all known Simsboro within a 10-mile radius of the UW Brazos Valley Farm, LLC property
- Worked with District consultants on parameters for a District mitigation policy
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2021 water production
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.

- Continued reconciling identified wells with proper aquifer using the virtual bore tool going grid by grid through the entire district.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.
