- Model aquifer/water conservation presentation to 60 Navarro Elementary School 4<sup>th</sup> grade students December 6, 2022 in Bryan, Texas

**General Business:**

- Staff (Alan & John) continued identifying wells within the likely zone to be affected by the UW Brazos Valley Farm, LLC future pumping project obtaining elevation, static water level, well construction information, pump size, and GPS coordinates
- Continued obtaining fall monitoring well data from existing monitoring wells in all aquifers
- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers

- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2021 water production
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Continued reconciling identified wells with proper aquifer using the virtual bore tool going grid by grid through the entire district.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.
