

**GENERAL MANAGER'S REPORT**  
**From May 12, 2023 thru June 8, 2023**  
**Presented June 8, 2023**

**Stats:**

- Monthly Management Plan Update (see File Browser)
- Registered for May 2023
  - a. Exempt Registrations – Brazos (26), Robertson (12), O/G (1) **Total – 39**  
**2023 Totals** – Brazos (62), Robertson (83), O/G (8) **Total – 153**
  - b. GM Permit Applications – 1 (2 for 2023)
  - c. 5-year Permit Applications – 1 (8 for 2023)
  - d. 3-year Transport Permit Applications – 0 (1 for 2023)

**Requests/Complaints:**

May TPIA Requests – 4

**Meetings and Public Education:**

- Presentation to College Station City Council on management strategies and aquifer status May 15, 2023 in College Station, Texas
- Met with Dr. Joe Yelderman, James Beach, and John Siefert to develop the scope of work for the proposed groundwater/surface water interaction study related to the Brazos River Alluvium Aquifer
- Attended (Alan & John) the TAGD Boot Camp field work and data collection June 6, 2023 in Pflugerville, Texas
- Attended (Alan) the TAGD Spring Business Meeting June 6, 2023 in Pflugerville, Texas
- Attend TAGD virtual Legislative Committee meeting every Friday throughout the 88<sup>th</sup> Legislative Session (3 meetings during May)
- Attend TAGD virtual Groundwater Summit Planning Committee meeting every other Thursday (2 meetings during May)

**General Business:**

- Staff (Alan & John) continued identifying wells within the likely zone to be affected by the UW Brazos Valley Farm, LLC future pumping project obtaining elevation, static water level, well construction information, pump size, and GPS coordinates
- Continued creating, updating, and refining the well mitigation spreadsheet for wells likely impacted by the UW Brazos Valley Farm, LLC future pumping project (286 Simsboro identified to date)
- Check all registered exempt well files for transfers of ownership creating new certificates and mailing to proper owner

- Began late spring monitoring well data collection from existing monitoring wells in all aquifers
- Began collecting water level data from Simsboro wells impacted during the Summer 2022 to create a known baseline water level prior to commencement of summer pumping
- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers.
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2022 water production.
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.

**Upcoming Meetings/Activities:**

- 88th Legislative Session continued through May 29, 2023 in Austin, Texas
- Presentation of "Groundwater Conservationist of the Year" Award to the City of Bryan June 13, 2023 in Bryan, Texas
- Texas Groundwater Summit August 29-31, 2023 in San Antonio, Texas
