- Attend TAGD virtual Groundwater Summit Planning Committee meeting every other Thursday (2 meetings during June)

**General Business:**

- Completed water level measurements in all available designated monitoring wells
- Continued measuring selected Simsboro and Calvert Bluff static water levels prior to the commencement of summer irrigation
- Continued to measure selected Simsboro wells and obtain weekly static water level data from four (4) recorder wells
- Staff (Alan & John) continued identifying wells within the likely zone to be affected by the UW Brazos Valley Farm, LLC future pumping project obtaining elevation, static water level, well construction information, pump size, and GPS coordinates
- Continued creating, updating, and refining the well mitigation spreadsheet for wells likely impacted by the UW Brazos Valley Farm, LLC future pumping project (286 Simsboro identified to date)
- Check all registered exempt well files for transfers of ownership creating new certificates and mailing to proper owner

- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers.
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2022 water production.
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.
