

**GENERAL MANAGER'S REPORT**  
**From July 14, 2023 thru August 10, 2023**

**Presented August 10, 2023**

**Stats:**

- Monthly Management Plan Update (see File Browser)
- Registered for July 2023
  - a. Exempt Registrations – Brazos (4), Robertson (5), O/G (0) **Total – 9**  
**2023 Totals** – Brazos (77), Robertson (105), O/G (8) **Total – 188**
  - b. GM Permit Applications – 0 (2 for 2023)
  - c. 5-year Permit Applications – 31 (39 for 2023)
  - d. 3-year Transport Permit Applications – 0 (1 for 2023)

**Requests/Complaints:**

July TPIA Requests – 4

**Meetings and Public Education:**

- Attend TAGD virtual Groundwater Summit Planning Committee meeting every other Thursday (2 meetings during July)
- Met with (Megan/Alan) City College Station (Jennifer Nations) and Texas A&M (Daryl Peterson) to plan the 2023 Brazos County Water Field Day scheduled for the second week of October.
- Met with (Megan/Alan) KBTX to discuss bolstering the District presence and range on social media
- Entered into an agreement with the Texas Water Foundation to use branded materials (“Texas Runs on Water”) in a localized effort to expand water conservation education in Brazos and Robertson counties

**General Business:**

- Moved onto the new Halff database platform and began to work through importing issues and expected revisions
- Prepared all documents necessary to post 51 new permits and 4 amended permits for consideration on September 14, 2023
- Worked extensively throughout the month on rules revision language and answering questions posed by the public and board members
- Completed water level measurements in all available designated monitoring wells

- Continued measuring selected Simsboro and Calvert Bluff static water levels during the summer irrigation season
- Continued to measure selected Simsboro wells and obtain weekly static water level data from four (4) recorder wells
- Staff (Alan & John) continued identifying wells within the likely zone to be affected by the UW Brazos Valley Farm, LLC future pumping project obtaining elevation, static water level, well construction information, pump size, and GPS coordinates
- Continued creating, updating, and refining the well mitigation spreadsheet for wells likely impacted by the UW Brazos Valley Farm, LLC future pumping project (286 Simsboro identified to date)
- Check all registered exempt well files for transfers of ownership creating new certificates and mailing to proper owner
- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo, Calvert Bluff, Queen City, and Simsboro aquifers.
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2022 water production.
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.

**Upcoming Meetings/Activities:**
