

**Item 5 | City of Calvert Well #7 | BVDO-0320**

Water production from the Goodland Farm Project (Upwell Water) is just over the horizon. It is now necessary to begin the process of drilling a new production well for the City of Calvert Well #7. Engineering design and TCEQ permitting is required prior to commencement of drilling.

There will be a discussion within Executive Session related to moving forward with the financing of engineering design, permitting and drilling of the well. Any action or discussion related to the City of Calvert Well #7 (BVDO-0320) under the District's Water Well Assistance Agreement with Permittee UW Brazos Valley Farm, LLC will be taken on this agenda item.
