

Summary of Transport Permit Applications

Applicants:

James Brien (2 wells)

Clifford A. (Trey) Skiles III (2 wells)

RH2O LLC (5 wells)

L. Wiese Moore LLC (2 wells)

Cula d'Brazos LLC (7 wells)

Ely Family Partnership LP (8 wells)

Fazzino Investments LP (6 wells)

Co-applicant: UW Brazos Valley Farm LLC (16 wells); currently holds an approved transport permit (BVTP-001) in the amount of 49,999 ac-ft/yr

Total Proposed Transport (ac-ft): Not to exceed 100,000/year in aggregate

Target Aquifer: Simsboro

Production Permits/Wells Involved in the Project: 48

Seven local landowners, including Applicant, who hold existing operating permits issued by the District for a combined total maximum production of 57,718 acre-feet per year have entered Option Agreements with UWBVF: Cula d'Brazos; Ely Family Partnership L.P.; Fazzino Investments; LP, L. Wiese Moore, LLC; RH2O, LLC; James Brien; and Clifford A. Skiles III (collectively, the Optioned Owners). Consistent with the terms thereof, UWBVF will have the right to produce and transport the Optioned Groundwater using the wells subject to the Groundwater Leases, a gathering network and a transmission system to be developed by UWBVF to the requested western receiving area. UWBVF, also a local landowner, holds existing transport and related production permits issued by the District for 49,999 acre-feet per year from its Goodland Farms property. Optioned Groundwater will be combined with the rights of the Goodland Farms property to support UWBVF's proposed project (this intended collective project is referred to as the UWBVF Project). There will be a hub for the UWBVF Project's connection of the gathering system to the transmission system to the western receiving area. The hub is likely to be located on the Goodland Farms property.

Receiving Area: Bell, Milam, Travis, Williamson counties; Based on ongoing project development, it is anticipated that the transport may be primarily to the City of Georgetown (City) in Williamson County; however, other municipalities, public water suppliers, or other end users in Williamson County, Bell County, Milam County, and Travis County may elect to participate in a regional project with Georgetown or otherwise contract for such water supply, if available. The proximity of significant growth areas and, in some cases, existing or planned infrastructure, located within service areas of multiple water providers make a cooperative regional project viable.

The City of Georgetown has entered into a reservation agreement with EPCOR to negotiate a public-private partnership and a Water Supply Agreement for Georgetown to import between 39,399 and 70,000 acre-feet per year from Robertson County, Texas. UW Brazos Valley Farm LLC has entered an agreement with EPCOR.
