

District FY 2025 District Export Fee Schedules Consideration

District Local Laws Code and Section 36.122 of the Texas Water Code.

- Export Fee Tier 1 is based on the amount of groundwater that is authorized under a transport permit but was not exported out of the District during the fiscal year.

Export Fee Tier 1: the difference of \$0.17/1000 gallons and the adopted production fee

- Export Fee Tier 2 is based on the actual amount of metered groundwater transported out of the District during the year.

Export Fee Tier 2: \$0.206/1000 gallons

A transport permit could be charged only one or both export fee rates in a fiscal year. Export Fee Tier 1 will be charged on all transport permits that do not export water during the year. If only some water is exported, then the non-exported, but authorized amount will be prorated to the date export begins and charged at a Tier 1 rate and the exported water will be charged at a Tier 2 rate.
