

## DFC Subcommittee Report

### Attending January 29, 2015 DFC Subcommittee Meeting:

Pete Brien  
Kent Watson  
John Seifert  
Alan Day  
Cathy Lazarus – Guest

The subcommittee met with John Seifert to discuss factors that will be used to determine the Desired Future Conditions of all of all managed aquifers within the District. The committee will present their recommendation to the Board as to a starting place for each of the aquifers in the current round of GMA-12 planning.

A copy of the packet reviewed by the subcommittee is enclosed. I am seeking guidance for BVGCD starting points on DFC's in each of our aquifers. There will be a GMA-12 meeting February 27<sup>th</sup> at which we should be prepared to begin discussions of GMA-wide DFC's.
