

Worksheet for an Amendment to an Operating Permit

Sandra Ryan & Bernadette Sloat – BVDO-0055, BVDO-0090, BVDO-0091

Sandra Ryan & Bernadette Sloat seek an amendment to three Operating Permits (BVDO-0055, BVDO-0090, BVDO-0091) for the purpose of:

- Adding Industrial Use to the existing Agricultural Use permit.

Existing Wells:-

- Hall Farm Well #1 (BVDO-0055) - Located at: N 30.92030566° W 96.67945708°
0.51 miles NNE of the intersection of FM 1644 and Providence Road in Robertson County
- Anderson Farm Well #1 (BVDO-0090) - Located at: N 30.934265° W 96.715276°
2.00 miles SW of the intersection of FM 1644 and New Magnolia Church Road in Robertson County
- Anderson Farm Well #2 (BVDO-0091) - Located at: N 30.929765° W 96.725049°
2.64 miles WSW of the intersection of FM 1644 and New Magnolia Church Road in Robertson County

Beneficial Use: **Industrial Use**

Aquifer of Origin: **Simsboro (all three wells)**

Well Column: **16" (all three wells)**

Rate of Production: **2000 gpm (all three wells)**

Max. Annual Production: **BVDO-0055 (600 acre feet/year)**

BVDO-0090 (600 acre feet/year)

BVDO-0091 (700 acre feet/year)

The permit holder is requesting an amendment to the existing Agricultural Use permit adding Industrial as a dual use. No additional water production is being requested. Metered production will be recorded and reported separately for each use.

Application is administratively complete. It is the recommendation by the General Manager to approve adding Industrial Use to the three listed Operating Permits.

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Sandra Ryan & Bernadette Sloat** (Permittee) authorizing the Permittee to operate a water well known as **Well #1 Hall Farm** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** and **Industrial** uses. Permittee is authorized to operate the Well located at **N 30.902307° and W 96.679469°** to produce water from the **Simsboro Aquifer** at an annual maximum capacity not to exceed **2000 GPM** and a maximum annual production of **600 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of February 4, 2010. This permit was revised on February 15, 2018 to reflect ownership transfer. This permit was amended on April 10, 2018 to reflect dual uses.

Special Provisions/Notes:

This is a dual use permit for both agricultural and industrial uses. Purpose of use will be reported and metered separately.

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Sandra Ryan & Bernadette Sloat** (Permittee) authorizing the Permittee to operate a water well known as **Well #1 Anderson Farm** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** and **Industrial** uses. Permittee is authorized to operate the Well located at **N 30.934265° and W 96.715276°** to produce water from the **Simsboro Aquifer** at an annual maximum capacity not to exceed **2000 GPM** and a maximum annual production of **600 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of October 7, 2010. This permit was revised on February 15, 2018 to reflect ownership transfer. This permit was amended on April 10, 2018 to reflect dual uses.

Special Provisions/Notes:

This is a dual use permit for both agricultural and industrial uses. Purpose of use will be reported and metered separately.

Permit No. BV-DO-0091

Operating Permit Issued By Direction of the Board of Directors of the Brazos Valley Groundwater Conservation District

This **Operating Permit** is granted to **Sandra Ryan & Bernadette Sloat** (Permittee) authorizing the Permittee to operate a water well known as **Well #2 Anderson Farm** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural** and **Industrial** uses. Permittee is authorized to operate the Well located at **N 30.929765° and W 96.725049°** to produce water from the **Simsboro Aquifer** at an annual maximum capacity not to exceed **2000 GPM** and a maximum annual production of **700 acre feet/year**.

Operating Permit Term:

- (a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.
- (b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.
- (c) The District may amend or revoke an operating permit at any time if there is evidence of:
 - (1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or
 - (2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or
 - (3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of October 7, 2010. This permit was revised on February 15, 2018 to reflect ownership transfer. This permit was amended on April 10, 2018 to reflect dual uses.

Special Provisions/Notes:

This is a dual use permit for both agricultural and industrial uses. Purpose of use will be reported and metered separately.
