BCS Mission Ranch, LP seeks an Operating permit for the purpose of:

- Industrial Use – Water for recreational purposes/make up

Existing Well: Well #1

Located at: N 30.568315° W 96.309217° 0.28 miles SW of the intersection of Abbate Road and Holleman Drive South in Brazos County for Industrial use.

Beneficial Use: Industrial – Water for recreational purposes/make up

Aquifer of Origin: Yegua-Jackson

Tract Size: Approximately: 270 acres

Well Column: 4"

Rate of Production: 28 gpm

Max. Annual Production: 45 acre feet/year

This application meets all of the specifications listed in BVGCD Rule 7.1 (c) regarding production based acreage. Below are the calculations verifying the applicant’s compliance:

45 acre feet/year x .62 = 27.9 gpm on an average annual basis

27.9 x 2'/gpm for Yegua-Jackson wells = 55.8’ radius from the wellhead

55.8 x 55.8’ x 3.14 = 9,777 square feet around the well

9,777/43,560 = .2239 contiguous acres to be assigned to the well.

The footprint of the well lies entirely within the property controlled by the applicant.

This application is administratively complete.

It is the General Manager’s recommendation that the permit be approved.
Permit No. BVOP-0294

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This Operating Permit is granted to BCS Mission Ranch, LP (Permittee) authorizing the Permittee to operate a water well known as Well #1 ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for Industrial use. Permittee is authorized to operate the Well located at N 30.567881° and W 96.329220° to produce water from the Yegua-Jackson Aquifer at an annual maximum capacity not to exceed 28 GPM and a maximum annual production of 45 acre feet/year.

Operating Permit Term:
(a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.

(b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.

(c) The District may amend or revoke an operating permit at any time if there is evidence of:

(1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or

(2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or

(3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of June 13, 2018.

Special Provisions/Notes: None
Worksheet for Operating Permit

BCS Mission Ranch, LP | BVDO-0239

BCS Mission Ranch, LP seeks an Operating permit for the purpose of:

- Industrial Use – Water for recreational purposes/make up

Proposed Well: Well #2
Located at: N 30.568315° W 96.309217° 0.32 miles SW of the intersection of Abbate Road and Holleman Drive South in Brazos County for Industrial use.

Beneficial Use: Industrial – Water for recreational purposes/make up
Aquifer of Origin: Yegua-Jackson
Tract Size: Approximately: **270 acres**
Well Column: **4”**
Rate of Production: **55 gpm**
Max. Annual Production: **88 acre feet/year**

This application meets all of the specifications listed in BVGCD Rule 7.1 (c) regarding production based acreage. Below are the calculations verifying the applicant’s compliance:

88 acre feet/year x .62 = 54.6 gpm on an average annual basis
54.6 x 2/gpm for Yegua-Jackson wells =109.2” radius from the wellhead
109.2 X 109.2’ x 3.14 = 37,443 square feet around the well
37,443/43,560 = .8596 contiguous acres to be assigned to the well.
The footprint of the well lies entirely within the property controlled by the applicant.

This application is administratively complete.

It is the General Manager’s recommendation that the permit be approved.
Permit No. BVDO-0239

Operating Permit
Issued By Direction of the Board of Directors of the Brazos Valley Groundwater Conservation District

This Operating Permit is granted to BCS Mission Ranch, LP (Permittee) authorizing the Permittee to operate a water well known as Well #2 ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for Industrial use. Permittee is authorized to operate the Well located at N 30.567520° and W 96.329800° to produce water from the Yegua-Jackson Aquifer at an annual maximum capacity not to exceed 55 GPM and a maximum annual production of 88 acre feet/year.
