Worksheet for an Operating Permit
Biocorridor Property Owners Association Atlas #1 – BVOP-0301

Biocorridor Property Owners Association seeks an Operating Permit for the purpose of:

- Industrial Use – Maintaining lake level in commons area for recreational purposes

Existing Well #1
Date Drilled: July 11, 2014
Well Depth: 320’
Tract Size: 10.455 acres
Located at: N 30.601870683° W 96.383946674° 0.21 miles WNW of the intersection of S. Traditions Drive and HSC Parkway in Brazos County for Industrial use.
Beneficial Use: Industrial
Aquifer of Origin: Yegua-Jackson
Well Column: 6”
Rate of Production: 60 gpm
Max. Annual Production: 69.35 acre feet/year

This application meets all of the specifications listed in BVGCD Rule 7.1 (c) regarding production based acreage. Below are the calculations verifying the applicant’s compliance:

69.35 acre feet/year x .62 = 43 gpm on an average annual basis
43 x 2'/gpm for Yegua-Jackson wells = 86’ radius from the wellhead
86’ x 86’ x 3.14 = 23,223 square feet around the well
23,223/43,560 = 0.5331 contiguous acres to be assigned to the well

The footprint of the well lies entirely within an area to which the applicant has the legal authority to produce groundwater.

Application is administratively complete.

It is the recommendation of the General Manager to approve the Operating permit.
Permit No. BV-OP-0301

Operating Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This Operating Permit is granted to Biocorridor Property Owners Association (Permittee) authorizing the Permittee to operate a water well known as Atlas #1 ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for Industrial use. Permittee is authorized to operate the Well located at N 30.60187068° W 96.38394667° to produce water from the Yegua-Jackson Aquifer at an annual maximum capacity not to exceed 60 GPM and a maximum annual production of 69.35 acre feet/year.

Operating Permit Term:
(a) An operating and drilling permit for a well or well site will automatically expire within three years from its issuance if the permitted well(s) has not been completed or is not significantly under development.

(b) Unless specified otherwise by the Board or these Rules, operating permits are effective for five-year terms. At the end of each five-year term, the permit shall be renewed by the Board for an additional five-year term, upon submittal of a permit renewal application by the permit holder that provides adequate evidence of continued beneficial use for the permitted amount of water withdrawal. The District shall send notices to permit holders that contain the permit renewal applications, prior to permit expirations.

(c) The District may amend or revoke an operating permit at any time if there is evidence of:

(1) the owner or operator of the well or well system has operated in violation of their permit, District Rules, or Chapter 36 of the Texas Water Code; or

(2) a change in the permit is required to prevent waste and achieve water conservation, minimize as far as practicable the drawdown of the water table or reduction of artesian pressure, lessen interference between wells, or control and prevent subsidence; or

(3) The permitted well(s) has not been completed, is not significantly under construction; or no significant progress is being made toward construction.

This permit is issued and effective as of August 9, 2018.

Special Provisions/Notes: None
