General Business:

- Continued work identifying, incorporating, and measuring water levels in identified monitoring wells in the Carrizo Calvert Bluff, Queen City, and Simsboro aquifers
- Measured water levels in monitoring wells that are idle or not equipped to pump
- Continued to identify and gather data associated with all known Simsboro wells within a 10-mile radius of the UW Brazos Valley Farm, LLC property
- Developed a shape file for all known Simsboro within a 10-mile radius of the UW Brazos Valley Farm, LLC property
- Continued to work with District consultants and permit applicant on parameters for a District mitigation plan including the funding mechanism

- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log).
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database.
- Invoiced all "Production Monthly" permit holders for 2021 water production
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases.
- Continued reconciling identified wells with proper aquifer using the virtual bore tool going grid by grid through the entire district.
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database.
- ArcGIS map/data program updating of exempt well locations and well data.

Upcoming Meetings/Activities:

- Post Oak Savannah GCD Groundwater Summit in Caldwell, Texas August 18, 2022
- Texas Natural Resources Committee Meeting in Austin, Texas August 23rd or 24th 2022
