General Business

- Coordinated with Halff Associates to repair the BVWaterSmart application platform housed with Halff Associates and administered by the District
- Coordinated with all stakeholders associated with the performance of a socioeconomic impact study related to the inability to increase the Desired Future Condition in the Simsboro Aquifer and its impact on District and regional stakeholders
- Continued collecting monitoring well water level data and verifying DFC water level measurements throughout May
- Continued to obtain base information on additional Simsboro wells identified within the boundaries of Robertson County and added to the existing mitigation list.
- Continued to measure selected Simsboro wells and obtain weekly static water level data from seven (7) recorder wells
- Invoiced 2026 invoices (monthly) February 2, 2026 & March 2, 2026
- Completed exempt wells in Brazos and Robertson counties were geo-tagged, photographed, and an inspection of surface completion conducted as completion notification occurred (submission of driller's log)
- Mailed all Certificates of Registration to well owners with recently located wells found in the TCEQ archived water well log database
- Continued locating wells based of archived well logs housed in the TCEQ and TWDB databases
- Non-exempt permit holders continue to report monthly water production directly to the ArcGIS database
- ArcGIS map/data program updating of exempt well locations and well data
