

Item 3 | District Socioeconomic Impact Study Presentation

A socioeconomic impact study of pumping impacts comparing GAM Run PS4-2, adopted as the base run for the 2026 DFC determination and Potential GAM Run PS4-3, offered by BVGCD for DFC consideration, was commissioned to and conducted by WestWater Research LLC. The effort was co-sponsored by BVGCD, City of Bryan, City of College Station, and the Texas A&M University System.

The results of the study are to be presented March 9, 2026, during the Regular Board Meeting. The study results will be available to the public as soon as the report has been accepted by the BVGCD Board of Directors.
