

Item #6 – Board Policy for Posting Subcommittee Meetings

Following the January 15, 2015 Board meeting, District staff has been posting a 72-hour notice for all subcommittee meetings. This was at the request of the Board President. There are some board members that have suggested the District adopt a policy that reflects the current practice of noticing subcommittee meetings.

The current practice has been of no inconvenience to District Staff and allows everyone interested in District planning to attend without the distinct possibility of overlooking someone. Prior to the 3-day noticing, staff would make phone calls to interested individuals.

This item is on the agenda for discussion/possible action.
