

**Worksheet for Amendment of BVHU-0195
Well #2**

Permit issued to: Mike Stratta

Permit issue date: May 3, 2006

Location: 0.39 miles NE of the intersection of FM 1644 and US Hwy 79 in Robertson County

Coordinates: N 30.838137° W 96.635146°

Aquifer: Brazos River Alluvium

Permitted production: 38 acre feet/year

Maximum Capacity: 400 gpm

Beneficial use: Agricultural Use

Amendment needed:

- Aggregate the well with existing well BVDO-0195. Total maximum annual production from the aggregated wells will be 91 acre feet/year

Application is administratively complete.

Historic Use Permit
Issued By Direction of the Board of Directors of the
Brazos Valley Groundwater Conservation District

This **Historic Use Permit** is granted to **Mike Stratta** (Permittee) authorizing the Permittee to operate a water well known as **Well #2** ("Well") at the location specified below within the Brazos Valley Groundwater Conservation District (District) for the beneficial purpose of producing water for **Agricultural Irrigation** use.. This permit is conditioned upon and subject to the Permittee complying with the Rules of the District ("Rules"), orders of the Board and the Management Plan of the District, as amended, and the laws, rules and regulations of the State of Texas, as amended, applicable to drilling, operating and maintaining water wells within the District. This permit confers only the right to use the permit under the provisions of the Rules and according to the terms of this permit. The permit terms may be modified or amended pursuant to the Rules.

The Permittee is authorized to operate the Well located at **N 30.838137° and W 96.635146°** to produce water from the **Brazos River Alluvium Aquifer** at a maximum capacity not to exceed **400 GPM** and a maximum annual production of **38** acre feet. This well has been approved for production in aggregate with Stratta Well No. 1 and the total approved maximum annual aggregate production for these permits shall not exceed **91 acre feet per year**.

The Rules are incorporated herein in their entirety by reference, as if set forth herein verbatim. The Permittee shall comply with the Rules and each requirement thereof in operating, maintaining, repairing and altering the Well. The application pursuant to which this permit has been issued is incorporated into this permit, and this permit is granted on the basis of, and contingent upon, the accuracy of the information supplied in that application. A finding that false information has been supplied to the District in the permitting process for the Well is grounds for revocation of this permit.

The issuance of this permit does not grant to the Permittee the right to use any private property, or any public property, for the production or conveyance of water. Neither does this permit authorize the invasion of any personal rights nor the violation of any federal, state, or local laws, rules or regulations. Further, the District makes no representations and shall have no responsibility with respect to the availability or quality of water authorized to be produced under this permit.

This Historic Use Permit will remain in effect for the life of the well as long as water is being produced for the herein specified beneficial use, subject to the District's Rules, Management Plan, and State laws.

This permit was originally issued and effective on May 3, 2006.
