

Item 11b – Monitoring Well Report – Summer, 2016

The District staff (Alan & Megan) began taking summer static water level measurements on June 24, 2016. We are on schedule to have all of the wells that can be turned off for the required amount of time measured by July 20, 2016. Hydrographs will be presented at the August 11, 2016 Board meeting.
