

RULE 1.1. DEFINITIONS OF TERMS

- (8) “Contiguous acreage” means land with the same continuous boundary within the District that is owned or legally controlled for the purpose of groundwater withdrawal by the well owner or operator. The contiguous acreage assigned to the well shall bear a reasonable reflection of the cone of depression impact near the pumped well, as based on the best available science and the production based acreage required by District Rule 7.1(c). Land that is owned or legally controlled by the well owner or operator that is separated only by a road, highway, railway, or river from other land owned or controlled by the well owner or operator is contiguous.

The only amendment would include adding “railway” to the definition.
