

Item 6c – Update of GMA 12 Regional Planning Meeting

Since the GMA 12 representatives met in Milano, Texas January 29, 2019, the District has:

- Compiled and provided the following permit and pumping information to Andy Donnelly for use in predictive scenario groundwater model runs:
 1. Total permitted production on all non-exempt wells
 2. Total production from all permitted non-exempt wells (2010-2017)
 3. Estimates of future production and areas of production not currently permitted
 4. Investigation of how pumping was distributed for the Brazos River Alluvium in the previous groundwater model

- The next scheduled meeting will be held Tuesday, May 14, 2019 at the Post Oak Savannah GCD Office in Milano, Texas.
